

JOB ADVERT

Process or Mechanical Engineer

Salary – Dependent on Experience

Knutsford, Cheshire

Due to an increasing number of projects Stopford have an exciting opportunity for a Process and/or Mechanical Engineer to join the Consultancy Group of Stopford.

The Company

Stopford is an international energy and environmental engineering company, our professional services span Consultancy, Technology & Innovation and Project Management. We are an industry leader with a portfolio spanning research and development through to design and commissioning of process technology. With a worldwide clientele in emerging and existing industries, we provide a full range of project management and engineer services from concept to full EPCC.

What we do... We provide consultancy, project management and environmental technology to a worldwide clientele.

What we value... Professionalism, equality, fairness, co-operation, and unrivalled expertise.

Our ambition... To lead the way in engineering a sustainable world towards a low-carbon economy.

Your time will primarily be based at our office in Knutsford with occasional visits to Client sites and our offices in Ellesmere Port and Lancaster.

This is a fantastic opportunity to join us as a Process and/or Mechanical Engineer and work with highly skilled professionals who are constantly striving to deliver excellence and best practice.

The Benefits

- Competitive Salary
- Pension
- 25 days holiday plus bank holidays
- Private medical insurance
- Employee assistance program
- On-site parking

The Role

Reporting to the Consultancy Safety Team Lead, Stopford Ltd is looking to recruit a Mechanical and/or a Process Engineer to carry out engineering duties. These include proposals, projects, and

consultancy activities, working within agreed time scales and budgets so that the needs of the client are fully met, together with the business needs of the company

Key Responsibilities

- Be capable of acting as Process Engineer to undertake process engineering aspects of the project.
- Liaise with other Engineers (both process and other disciplines) to obtain and provide necessary information to complete the design and engineering.
- Support the Lead / Senior Process Engineer as required and deputise on occasions.

About you

- Degree in Engineering and working towards chartered status
- Be able to demonstrate engineering design skills
- Main equipment design and specification (e.g. pumps, tanks, instrumentation, heat exchangers and line sizing)
- Experience in working in multi-discipline engineering teams
- Organisational and administrative skills
- Clear and concise communication in both written and verbal form with excellent people management and interpersonal skills
- Eligible to live and work in the UK
- Full UK/EEC driving licence.

Desirable

- Experience of risk assessments and regulations – e.g. PSSR, PED, HAZOP, HAZAN, COMAH, DSEAR, CDM, LOPA etc
- Experience of working in a similar service industry on multi-disciplined projects

Please note we do not accept applications from agencies.

To apply you must be eligible to live and work in the UK.

To apply, please email your CV to careers@stopford.co.uk and quote job reference **xxxxxxx**

If we think you have got potential, we will be in touch within 10 working days.
